

Greetings Champion,

Perception is the way you view or understand something. Perception is the way a person views an event, situation, or information.

It seems that we all perceive things differently.

In the political arena, the Republicans and Democrats view the solution to problems 180° opposite. Both groups would swear that they are right.

In Christianity, some denominations believe in miracles and prosperity and others would swear that miracles ceased when the apostles died and that prosperity is not promised to God's people.

At the carnival there is an attraction called, "The house of mirrors." Some mirrors make you look fat, other mirrors make you look super tall and skinny. Some mirrors make you look like you have a gigantic head or a super wide butt.

The glass for the mirror is bent or curved to change and distort the image to something other than reality.

In similar manner, many times our perception of ourselves, or our perception of God, is giving us an untrue image of reality.

Perhaps we view ourselves as unlucky, destined to do poorly in life, or undeserving of blessings. Or perhaps we view God as indifferent towards us and not really wanting to use His power on our behalf.

Those are distorted images and don't represent who we really are or who God is to us.

At all times you must view yourself, and God, through the true mirror of the Word.

God is totally for you and has made provision for you to win in life. He has made you right with Himself by the blood of Jesus. He is the One that has made you deserving of every blessing He possesses.

Start perceiving yourself, and God, through different eyes.

When you change the way you look at things, the things you look at – change.

Blessed with heaven's best,

Pastor Glen
