

Greetings Champion!

My goal and mission in life is to help people become MORE. Help YOU personally become MORE. When you become MORE, you can DO more and HAVE more and HELP more!

We must start with a question that you might think is insignificant, but in reality it is all-important.

Who Do You Think You Are?

Your identity... Your Perception and your View of who YOU are, determines how much success, wealth, and happiness you will enjoy in life. Your self-image affects most decisions and every relationship you have with others.

Your self-image is your happiness and success Thermostat!

Your self-image is your internal thermostat that regulates and determines how much good, or how much bad, you receive from God and life.

If you're like most of us you probably find yourself overwhelmed with projects you must attend to. Please understand that YOU are the most important project you have.

Keep investing and seeding into things that make you a better you.

Pastor Glen
