

Greetings Champion!

Blessings and increase to you in the mighty name of Jesus!

It's a natural tendency to *cry* and *complain* when things don't go our way, or if we suffer loss. Depression is becoming more prevalent all the time.

Half the people in America lose their marriages. Many lose their jobs, and therefore their homes and lifestyle. Think of the great loss that occurred for so many people in Louisiana when Hurricane Katrina struck.

The key to victory is, "Don't stay in that crying and complaining state."

Joshua's army was defeated because one of the soldiers disobeyed both Joshua and God's orders and sinned by stealing some of the goods that was to be devoted to destruction.

Joshua was discouraged and depressed and questioned God about even going into the Promised Land.

God spoke to Joshua basically saying, "*Shut up, and get up! You suffered loss because there is sin in the camp, deal with it and be a conqueror*" (Joshua 7:10-11).

Joshua shook himself, dealt with the sin and then lead the children of Israel on to take the whole Promised Land.

There's a land of promise and blessing out there for you, but sometimes you need to shake yourself, get out of the rut, and go after your dream and destiny.

God has a big life for you, but to get it to you requires your cooperation.

Pastor Glen
