

Greetings Champion!

Blessings and increase to you in the mighty name of Jesus!

I'm sharing some success nuggets with you this month that I trust will enhance your life.

If we defined "*risk*" as "*the likelihood of an irreversible negative outcome,*" then inaction and thinking and doing what you've always done is the greatest risk of all, because it can only produce an irreversible negative outcome.

Don't just live a tolerable and comfortable existence doing something unfulfilling. Really live! One of the reasons Jesus came was to give you "*life more abundantly.*" Destroy forever all your assumptions about what can and cannot be done and what you can and cannot do, and have. You are a "*possibility person.*"

Stop being a deferrer. A deferrer is a person who saves all for the end only to find out that life has passed them by. Don't save it all for the end. There's every reason not to.

You are only on this earth for so many minutes. So if there's a heart's desire, something that is so important to you that you want to do it eventually – do it now!

For most of us, our whole life has been involved with the following models that don't work. It's time to follow Jesus the right way and experience the success and blessings He has shown to us and promised us.

Stop following a model that doesn't work. If the recipe sucks, it doesn't matter how good a cook you are. Embrace the fact that for all of the most important things in life, the timing always sucks. That never changes. For that reason, go for the dream that seems impossible, trusting God through the process.

God wants the rest of your life to be the best of your life,

Pastor Glen
