

Greetings Champion!

Blessings and increase to you in the mighty name of Jesus!

The first commandment a human ear ever heard was to “*thrive and become more*” (Genesis 1:26-28). God wants you to thrive while you are alive!

Again, embrace the fact that for all of the most important things in life, the timing always sucks. That never changes. Armed with that knowledge, go for the important things you desire.

How has being *realistic* or *responsible* or *logical* kept you from the life you desire? The life that would fulfill you and truly make you happy?

How has playing it safe, doing what others do, and what *they* say you should do, contributed to your mediocre, subpar existence?

How do I pry myself from the tentacles of worry and workaholism and the fear that my world will fall apart without my 10 hour workdays? How do I escape my self-made prison?

It's not losing in life to put your current mediocre path on indefinite pause. Most people will choose *unhappiness* over *uncertainty*. You've probably heard the song, “*Don't Worry, Be Happy.*” The system of the majority is, “*Don't Happy, Be Worry.*”

You can always recreate what you currently have if you “*go for it*” and fail. You already know how to create the life and things you currently have. You are an expert. To create what you don't currently have will take drastic change.

The drastic change needs to be in what and how you think and what you do. The only risk in “*going for your dream*” is self-imagined.

You are not a victim of your circumstances. Your circumstances are a victim of you.

Progressing daily,

Pastor Glen
