

Greetings Champion!

Blessings and increase to you in the mighty name of Jesus!

Are you familiar with the toy called “LEGOS?” What do you do with LEGOS? You build something. From a simple little child’s toy to the elaborate “LEGOLAND Theme Park,” LEGOS build things.

LEGOS build things, and the words you say are called “LEGOS” in the Greek language, as stated in Mark 25:28. *For she **said**, “If only I may touch His clothes, I shall be made well.”*

Your words have creative power and you can build your life wonderfully or miserably with the words you speak!

The woman with the flow of blood, who was on the verge of dying, used what she “said” (her LEGOS) to build healing and a long life for herself. You can do that too!

We are either encouraged or discouraged by the words we say to ourselves.

Dr. Marty Seligman, an author and popular professor from the University of Pennsylvania, studied the mind and thinking for over 20 years and wrote a number of books. In his book, “Learned Optimism,” his research showed that we talk to others at about 140 words per minute, while we talk to our self at about 900 words per minute. His scientific research proved that more than 70 percent of what we say to ourself is negative.

Other than talking to God, the most important conversation you will ever have is the conversation you continually have with yourself. For that reason, make sure the words you speak to yourself are edifying and encouraging.

You have already created and built your world with your words. You can now create and build your world even better by using the Word of God.

Your words are LEGOS,

Pastor Glen
