

Greetings Champion!

Blessings and increase to you in the mighty name of Jesus!

I'm writing a book about how Christians are supposed to become *Rightly Rich*.

Now that you are God's child, you must school yourself to believe that *God's number one desire for you is to prosper financially* (3 John 2).

Regardless of how many raises and promotions you get on the job, prosperity will not be possible for you until you develop the *mindset* of prosperity based on God's Word.

Prosperity may not be your experience, or what you have seen in your family, or been taught. Nevertheless, the fact remains, God promised financial prosperity to His children more times than He promised anything else in the Bible, even forgiveness of sins and Heaven.

Even though financial prosperity is *God's will* for *ALL* of His children, only a very small percentage of the Christian population currently enjoy extraordinary wealth. The good news is, that can change for you!

In my book, you will be instructed how you too can reap the abundant harvest of blessings, supernatural supply, and wealth that God promised and intends for you to have.

Be warned! Prosperity will never be your experience if you are unwilling to be "*open-minded*" about changing your thinking and believing what God said.

What you must get comfortable with is that prosperity and being more blessed than you currently are, has to do with changing your thinking, first of all.

Prosperity is one of the most needful blessings in the Body of Christ, but also one of the most difficult promises for most Christians to embrace. That's because lack, insufficiency, and poverty has been taught to us, and modeled for us, much more than prosperity has.

Be sure you work on developing a *prosperity mentality* in 2017, and dump that old poverty mentality that most of the Church has embraced. Lack and insufficiency thinking has held you back long enough. This is your year to thrive!

Pastor Glen
