

Greetings Champion!

Blessing and increase and power and might and dominion be to you in the mighty name of Jesus!

It is only by changing your thinking about prosperity that prosperity can come to you, regardless of what kind of job you have.

You must embrace a PROSPERITY MINDSET in order to prosper.

Take the brakes off and allow yourself to “buy into” what God and Godly reasoning have to say. To increase financially begins with a change of mind, not with a change of job.

The thought that God wants *you Rightly Rich* can't be intermittent or occasional.

The thought that God wants you **super blessed and rich** must become your continuous and steady MINDSET so that your thoughts and beliefs automatically gravitate to **blessed and rich**.

The MINDSET that, “God Wills your prosperity” and has provided prosperity for you, must become so foundational in your thinking that it becomes as obvious to you as B follows A in the ABCs.

That's what my new book “The Blessing of the Lord, It Makes You Rich” (Proverbs 10:22) is all about.

Have you ever heard your parents or family members say:

- Life is a struggle
- It's hard to make ends meet
- Money doesn't bring happiness
- We can't afford it
- Money doesn't grow on trees

Thinking in agreement with those statements is what causes lack and insufficiency. Believing those statements keep people poor.

It's time to renew your mind to the prosperity God has provided,

Pastor Glen
