

Greetings Champion!

I don't know about you, but my wife and I have invested thousands of dollars to attend both Christian and secular seminars and conferences that were advertised as being "life changing."

After investing so much money to travel to where the seminar was being conducted, paying for airfare, car rental, lodging, food, and of course, the cost of the seminar, along with the books and CDs we purchased, we discovered something very important.

What we discovered was, in every case, our lives hadn't changed.

We were told at the expensive life changing seminar that, "*The seeds of greatness lives inside us*" and "*We can accomplish anything!*"

We were asked the powerful question, "*What would you try if you knew you couldn't fail?*"

At the time, we were pumped-up and excited, but within a few days or weeks it was back to business as usual. We had no greater opportunities or achievements, and our life was as mediocre as it had ever been.

Why was that? Things remained the same as they were before because after a few days we gravitated back to thinking as we always thought and believing what we had always believed.

It is impossible for a one day or weekend seminar to change your life because in order for your life to change, *what you think* about, and *how you think*, and *what you believe* to be true, has to change.

For your life to change, your thinking and core belief system has to change, and that takes time.

I encourage you to "*work on you*" by reading a new genre of books and considering things you've never considered before. When you *become more* as a person, you can then *do more*, and *have more*. It is at that point that you will be able to *love more* and *help more*.

That's our goal,

Pastor Glen
