

Greetings Champion,

*“Abraham was very rich in cattle, in silver, and in gold”* (Genesis 13:2) and Abrahams Blessing is yours (Galatians 3:13-14).

I have been sharing with you, for the past couple of months, excerpts from my book “The Blessing of the Lord, It Makes You Rich” taken from Proverbs 10:22. I’m really believing that the principles have been helping you to increase with the increase of God.

The premise of what I’ve been sharing is in order to change your current conditions and circumstances, you must change what you think and believe. So many wonderful people falsely believe that if their circumstances changed, everything in their life would change for the better. But that’s not so. In fact, the opposite is true. If what you think and believe changes, THEN everything, including your circumstances, will change.

Your thoughts and beliefs must change before your circumstances can change.

To experience change, you must change your *belief system*. Your belief system is the internal system that regulates why you think and believe what you think and believe. Your belief system is really the way you explain to yourself why things happen the way they do.

If the way you think, and what you currently believe was capable of giving you what you desire in life, you would already have what you desire in life. If you want something different from what you currently have, you must start thinking and believing differently.

When you change what you think and believe concerning prosperity, your financial condition will change for the better and you will prosper God’s way.

Our goal is to have faith in “The Blessing” that God has commanded upon us and become *Rightly Rich*, God’s way.

Increasing with the increase of God,

Pastor Glen
