

Greetings Champion!

The riches in glory in Christ Jesus come to you today, in Jesus' name (Philippians 4:19).

I have been on a quest to share with you some of the principles that spoke to my heart that I recorded in a journal I created 10 years ago. I believe these principles helped me **BECOME MORE** as a person. These principles also helped me **DO MORE** and **HAVE MORE**. I'm believing the same for you.

- In the 1900s there were five thousand, millionaires. In 2000 there were five million, millionaires. In 2020 it is projected there will be 20 million, millionaires. You might as well be one of them!
- Let your desire and future intention determine your present action.
- Make decisions and act out of your destiny, not out of your current circumstances.
- JOB can be an acronym for "just over broke." Work your destiny, your gifting, and your desires, don't just work a job.
- The level of your self-esteem determines how much money you can have. Work on liking and respecting "Yourself" more.
- Treat failure as feedback. Learn from the feedback and keep going forward.
- Deal with your goblins regarding money because God wants you to have a lot of it.
- Your beliefs create actual facts for you. Believe the best.
- If you make it to the "Forbes 400" list and dropped out of school, you have, on average, \$300 million more than the college grads on the list.
- If you dial the phone number in the correct sequence, anybody can call anyone and get through. It's law. One number off will give you a different outcome. The same with the laws that govern happiness and wealth. Learn and apply the laws.

Enjoying the journey to success,

Pastor Glen
