

Greetings Champion!

It's Time to Flip The Script!

Have you been getting very little of what you desire in life and a lot of what you don't desire?

If that's the case, it's time to flip the script. In fact, it's time for a brand-new script.

If you're like most of us, you've probably accepted and embraced that which is fictitious, absurd, and harmful, and perhaps you are ordering your life in-line with things that are simply not true.

Maybe you think that it's hard for you to get ahead in life. Maybe you think you will never have the desires of your heart. Maybe you think that for some reason God doesn't want you to have more. Maybe you think you are unlucky.

Those are very common lies that many wonderful people have embraced as true.

With the right plan and consistent effort, the personal limitations we have accepted can be broken and an UNLIMITED YOU can emerge. By persistently imagining what we really want and what God has promised us in the scriptures, we can discard the old script and introduce a completely new story.

Through the power of your imagination and repetition we can free ourselves of the limitations that are holding us back.

I say, "Imagination" because you must first visualize yourself having and becoming what you desire.

I say, "and repetition" because repetition is a great convincer. Why do you know your ABCs? Why do you know your times-tables? Why do you know how to drive your car or turn on your television or fry some eggs? REPETITION! You've done those things so many times they now become easy; they become automatic.

In like manner, your thinking can change by the use of your imagination and repetition. The great news is – when your thinking changes, so does everything else.
