

Greetings Champion!

God's method of bringing about the biggest change in your life is getting you to *think differently* by renewing your mind with the Word of God.

The goal is to think in-line with what God has said in His Word.

The most efficient way to do this and bring about these big changes is by thinking differently – by meditating on God's Word (Joshua 1:8).

Joshua was the leader of the nation and a mighty general. God told him that in order to succeed, he must meditate on the Word of God day and night. Then, he would have good success and his way would be made prosperous.

*MEDITATION* and *IMAGINATION* can put you in the shoes of the someone you want to become, and experience what you want to have and experience.

**Memory** *replays* an event or experience. For many people, worry is their way of life. They worry because they replay events and experiences from the past or they project those past events and experiences into their future.

**Imagination** "*pre-plays*" an event or experience. Through imagination, God enables you to *pre-plays* your future. That enables you to design and sculpt it the way you want it to be.

Meditation and Imagination enables you to visualize and feel like **a victor, a conqueror, a winner, a giant killer**, a person who has just been delivered out of something bad, a prosperous and happy person, someone dearly loved by God, and so forth, before you experience those things in reality.

Start this year off right by imagining only good things!
