

Greetings Champion!

You are God's workmanship created in Christ Jesus (Ephesians 2:10).

When a believer exercises faith and does something, God will always do something beneficial in response. We are the ones who must initiate God's response.

You draw near to God, and He will draw near to you (James 4:8).

You've probably heard of "the law of cause and effect." Here your faith, demonstrated by your thoughts, words, and action is the *cause*. God performing His Word to you is the *effect*.

When a believer does everything he can do through faith and action, God then does what only He can do.

When believers do something (act their faith), they release miracles.

We need to believe and pray as if the answer only depends on God, and we need to work as if the answer only depends on us.

When God finds that combination, BAM! Manifestations and miracles follow!...

**B**elieve

**A**ct

**M**anifestation

Do you want a bigger, more fulfilling life? Then believe the promises of God and start acting toward your desire, and all of a sudden you will discover that what you desired has already manifested. It may even seem coincidental, but trust me, it was supernatural. It was God.

Nothing to it but to do it,

Pastor Glen
