

Greetings Champion!

Blessings and victory to you in the mighty name of Jesus!

I always like to say, “blessings and victory” or “blessings and increase” to you in the mighty name of Jesus! I say that because I know it's available; and I know it's the will of God for you. I also know there's a part that you must play in receiving blessings and victory and increase.

The part you must play is coming to an understanding of how God's spiritual laws and principles work. Spiritual laws and principles are as operational, functional, and usable as natural, scientific laws. A huge factor in receiving from God has to do with the way we think. Thinking is a spiritual activity, governed by spiritual laws.

Our conscious mind is greatly influenced by our five senses, and the information fed to our mind from our five senses may be contrary to beneficial spiritual laws. The five senses do not report the truth to us much of the time, so we accept, reject and relate everything based on what may be a mistaken certainty.

What we need to do is to train ourselves to look within for inner guidance that comes from meditating on God's Word. As long as we rely on the conscious mind alone, we will continue to make unnecessary mistakes and become disappointed and frustrated.

Proverbs 4:20-23, gives us six principles for putting God's Word first place in our life and feeding our heart and mind with the correct, powerful information. From the Good News Bible, God tells you to:

1. Pay attention to what you say
2. Listen to your words
3. Never let them get away from you
4. Remember them
5. Keep them in your heart
6. Be careful how you think, because your life is shaped by your thoughts

Keep God's Word first place in your life,

Pastor Glen
