

Greetings Champion!

Blessings and increase to you in the mighty name of Jesus!

The Bible is a supernatural book. It may be printed on the same paper that other books are printed on. It may be printed with the same ink, typestyle, and have the same words that other books have; however, the person who said the words and the order that the words are used makes the Bible, "The Word of God."

Jesus said, *"My words are spirit and they are life"* (John 6:63), and *"Heaven and earth shall pass away, but my words shall not pass away"* (Matthew 24:35).

God's Word is eternal. God's Word created all things. God's power is constantly active within His Word to bring it to pass, when it is activated by your faith.

In the natural realm when men refine the drug "heroin" they wear rubber gloves and masks. Why? Because heroin is so strong in its pure state that the pores in the skin will absorb it if handled for a prolonged period of time, and it will affect the person or even overdose him.

The Word of God is so strong in its pure form that it will also affect the person handling it. God's Word will be absorbed into your being. It will affect your mind, your health, your spirit. God's Word will make a hero of faith out of you.

Take off the gloves and mask, and embrace the Living Word of God. Breathe it in, handle it, see it, read it, hear it, think it, believe it, speak it, live it, and enjoy it.

Make God's Word a major part of your life,

Pastor Glen
