

Greetings Champion!

Blessings and amazing increase to you in the mighty name of Jesus!

- *A good life is built upon good thoughts!*
- *What you think about, you bring about!*

Good circumstances, situations, and opportunities respond to good thoughts. On the other hand, if your thoughts are in harmony with failure and pain— circumstances that cause failure and pain, fear and “dog” your life.

It is important to be sensitive to the way you are *feeling* all the time so that you will always know whether or not you are in the process of receiving, and about to experience, what you want, or what you don't want.

As strange as it sounds, your feelings are “indicators” of what you've been thinking about.

If you feel joyful, grateful, happy, and blessed (in other words, feeling a *supernatural sense of well being*), you can be sure you've been thinking good and right thoughts, and good and right things are on their way to you.

Your feelings are the result of, and were created by, your thoughts. Your thoughts are the *cause*, and your feelings are the *effect*.

If you feel depressed or stressed, you have been thinking incorrectly and are magnetizing the things you don't want to be attracted to you.

If you want more from life, you have to make *YOU* your number one priority. You have to make thinking correctly (positively, abundantly, and victoriously) of utmost importance.

Allow today to be the first day of a new regiment of thought: Blessed thought.

Renewing our minds with the Word of God,

Pastor Glen
