

Greetings Champion!

Blessings, divine health, and supernatural wealth be yours, in the mighty name of Jesus!

Keep your mind and words in harmony with your desires!

Thoughts are spiritual and creative. I was never taught that important truth at home, in school or in church. Thoughts send out positive or negative frequencies that attract positive or negative things into your life.

When you feel discouraged or down, the first thing you should do is say to yourself, *“Self, I am feeling negative emotion, which means I am worrying. This is a warning and indicator that I am not thinking in harmony with what I desire and the blessings that God wants me to have.”* Then, use *positive self-correction* and the Word of God to restate what it is that you do desire.

With practice, this will become easy to do because you are never clearer about what you want than when you are experiencing what you do not want, because it is just the opposite.

Turn your attention *AWAY* from what you don't want and turn *ON* to what it is that you do want. In that moment of *positive self-correction* and by turning your attention to what you want, the adverse attraction will stop.

This is the process of *positive self-correction* and what Jesus was talking about when He taught about *“Binding* (restricting, prohibiting, and stopping) *and Loosing* (allowing and permitting)” in Matthew 18:18.

Don't allow negative thoughts to create a negative life for you.

Pastor Glen
