

Greetings Champion!

Much of the stress, discontentment, bad health, and marital problems we experience can be solved by simply having more money.

One of the greatest bondages that the Church has today is believers not having enough money to do what they want to do, let alone do what the Lord wants them to do. Christians, in general have been broke, and that has contributed to a life of distress, discouragement, discontentment and living far below what God intends.

Many times stress and discontentment are derived from debt!

When you don't have enough money to pay your bills, or do the basic things you need to do, it seems as if a bad spirit enters into your household and causes tension and strife and division among family members. Even among husbands and wives.

You obviously want to act right and love your mate and family members, but if you're broke, you end up fussing and fighting over money instead of loving and caring for each other.

Jesus paid the price for you and me not to be broke. He made an expensive deposit in the *Bank of Heaven* on our behalf. And by making that deposit, He has freed us from poverty, lack, debt, distress, discouragement, and discontentment. Hallelujah!

Based on having laid hands on, and praying for thousands of people, and receiving thousands of radio requests for prayer, it is obvious to me that needing more money is the biggest need in the body of Christ. That is followed by the need for healing, and for relationships to be restored.

If we Christians could learn how to appropriate the financial blessings God wants us to have, in many cases the healing and relationships would be solved at the same time.

Believing for you to increase,

Pastor Glen
