

Greetings Champion!

Each one of us has an *inner guidance system* from God. Our *inner guidance system* offers us a simple way to know if we are moving towards or away from our desires. It does this by offering us positive or negative feedback that we call *emotions* or *feelings*.

Have you ever wondered why we even have emotions and feelings?

Positive and negative emotions are like an *Automatic Guidance System* designed to let us know the appropriateness of our thoughts regarding whatever is happening in every situation. It applies to every thought, every word, every interaction, and every circumstance.

Positive and negative emotions and feelings are a powerful guidance system, but few people know about it, or how to use it. Taking advantage of it is as simple as paying attention to whether you are *FEELING* positive or negative, happy or unhappy, enthusiastic or discouraged at any given moment.

The universal laws that God set up respond favorably to us only when harmony with those laws exist. It is not possible to have a negative emotion or feeling, such as worry, fear, stress, or anxiety, and at the same time be in faith and harmony with anything you truly desire in your life. Therefore, whenever you are feeling the negative emotions of worry, fear, stress, or anxiety, you are in that moment literally asking for, or inviting the opposite of what you want into your life. You are in reality, giving place to the devil.

Negative thinking is "*Giving place to the devil*" (Ephesians 4:27). Said another way, "*Negative thinking is giving an invitation to the devil and life to bring you what you do not want.*"

Think about the things you want, not the things you don't want.

Pastor Glen
